ABOUT ME

I'm a web-developer filled with huge passionates for coding and learning something new related to programming. Plus, I'm always highly motivated to contribute to companies and clients.

PROJECTS

● CountryBeen - Personal Project

A web-application recording countries you've ever been to, coded Typescript and Redux-toolkit and styled with Tailwind CSS. Introducing the react library called "React-Simple-Maps" to make countries users have been to visualize. Also I manipulate data fetched from REST Countries API.

● FreshMarche - Personal Project

An e-commerce-like web application with basic CRUD operation such as 'add products to cart', 'edit products in cart'. Also this application have fundamental tools for e-commerce application as react-router,user-authentication powered by Firease and so on. Besides, this application introduces Stripe Checkout Form to showcase a dummy payment procedure.

● Doctor Appointment - Group Project

A useful web application for making appointments to doctors as well as checking out upcoming appointment schedules. Mainly this application is a JAMStack application connecting to Firebase as the database storing datas both users and doctors, in addition to availabilities of doctors. At the same time React is responsible for the front-end part styled by normal CSS, without any CSS framework or library.

WORK EXPERIENCE

● SMC Corporation

2017 - 2021 **Salesperson**

Worked as a salesperson selling mechanical parts and developed my soft-skills that are compassion for clients, creative problem-solving for troubles, etc.

EDUCATION

● Cornerstone International Community

College of Canada

2021 - 2023

Web Development - Diploma degree

- Learned fundamentals of programming and experienced multiple team-projects for gaining practical experiences.

● Shiga University

2012 - 2017 **Ecomonics - Bachelor degree**
