About Me

Front-end developer with an extensive background in education and a vast passion for building user experience and interaction design. Learning and growing as a developer always comes as my first priority to enhance my skills by creating an e-commerce-like application as my personal project utilizing React.js, Javascript, Typescript, Redux, and so on. I am confident in working and collaborating as a team through the experience of group projects in my college.

Skills

React.js, Javascript, Typescript, Redux

HTML/CSS, SASS/SCSS, Next.js, Bootstrap, Material-UI, Tailwind CSS
Node.js, Express.js, MongoDB, Firebase, Heroku, Jest, Figma, JQuery

Projects

CountryBeen - Personal Project

- A web application recording countries you've ever been to, coded Typescript and Redux-toolkit and styled with Tailwind CSS. Introducing the React library called 'React-Simple-Maps' to make countries users have been to visualize. Also, I manipulate data fetched from REST Countries API.

FreshMarche - Personal Project

- An e-commerce-like web application with basic CRUD operations such as 'add products to cart', and 'edit products in cart'. Also, this application has fundamental tools for e-commerce application as react-router, user-authentication powered by Firebase, and so on. Besides, this application introduces Stripe Checkout Form to showcase a dummy payment procedure.

Doctor Appointment - Group Project

- A useful web application for making appointments with doctors as well as checking out upcoming appointment schedules. Mainly this application is a JAMStack application connecting to Firebase as the database storing data for both users and doctors, in addition to the availabilities of doctors. At the same time, React is responsible for the front-end part styled by normal CSS, without any CSS framework or library.

Education

Cornerstore International Community College of Canada

2021 - 2023

Web Development - Diploma

Learned fundamentals of programming and experienced multiple team projects for gaining practical experiences.

Shiga University

2012 - 2017

Economics - Bachelor

Soft Skills

Creativity Time management

Communication Problem solving

Work Experience

SMC Corporation 2017 - 2021

Sales person

Applied professional creativities to solve the problem that clients had, resulting in increasing 20% sales introduced appropriate products that I promoted.
