

# KENTO HONDA

---

## WEB DEVELOPER

+1 (604) 671-3832 | kentos1112canada@gmail.com | [Portfolio website](#) | [LinkedIn](#) | [GitHub](#)

### SUMMARY:

---

Web developer with extensive education in web development and a vast passion for building user experience and interaction design. A quick learner and highly motivated to self-improvement to grow as a developer. Also, very confident in developing user experience through creating my projects.

### SKILLS:

---

**LANGUAGES:** Javascript, Typescript, HTML, CSS, Ruby

**FRAMEWORKS & LIBRARIES:** ReactJS, Redux, NextJS, NodeJS, Express, Styled Components, React-Router, Material UI, Tailwind CSS, Chakra UI, Ant Design, Bootstrap, SASS, jQuery, AJAX, Ruby on Rails, bcrypt, JWT

**SYSTEMS & DATABASE:** MongoDB, Firebase, Heroku, Git, GraphQL, Jest

### PROJECTS:

---

#### ShoppingList-Mern-App | ReactJS, NodeJS, Express, MongoDB, ChakraUI, bcrypt, JWT

MERN-stack application memorizing shopping items with the back-end side (server with NodeJS and Express and database with MongoDB). Also, adding user authentication powered by bcrypt and JWT, and basic CRUD operation by connecting the client side with MongoDB (database) properly.

#### StudyLog | Typescript, ReactJS, Tailwind CSS, Ant Design Chart, MerakiUI

Simple design application recording and analyzing users' daily study logs (how many hours do users study in a day, the place to study, and so on.) by visualizing the data fetched from the database (Firebase). Introduced Ant Design Chart to showcase users' data with a good-looking line graph.

#### CountryBeen | Typescript, ReactJS, Redux, Firebase, TailwindCSS, DaisyUI

Useful web application for memorizing countries where you've ever been before and analyzing them visually by introducing 'react-simple-map', a react library showcasing the world map with data. Fetching Data from Country REST API, having user authentication and database powered by Firebase.

#### FreshMarche | ReactJS, Firebase, MaterialUI, Stripe API

E-commerce-like application with fundamental CRUD operations (add, edit, delete items in the cart) and a dummy checkout form powered by Stripe API. Styled by MaterialUI to build user interface quickly.

#### Doctor Appointment | ReactJS, Redux, MongoDB, Firebase, Styled-components

**Group project in school** - helpful application for booking appointments with doctors as well as checking out upcoming appointment schedules. Using Redux for state management and MongoDB as database.

### WORK EXPERIENCE:

---

#### SMC Corporation | Salesperson | 01 April, 2017 - 31 September, 2021

Applied professional problem-solving skills to solve issues that clients had, resulting in increasing 20% sales by introducing appropriate products that I promoted.

### EDUCATION:

---

#### 2021 - 2022 | Cornerstone International Community College of Canada

Web Development - Diploma

Learned fundamentals of programming and experienced multiple team projects for gaining practical experience.

#### 2012 - 2017 | Shiga University

Bachelor of Science in Economics
